A LUXURY COLLECTION RESORT  
Scotland

## Turnberry, A Luxury Collection Resort

Situated on a beautiful stretch of Scottish coastline, Turnberry is a resort at one with its magical location. With views to the Irish Sea, the island of Arran and the remarkable Ailsa Craig, it offers an enchanting blend of heritage and timeless design.

Only an hour from Glasgow International Airport and two from Edinburgh International Airport, Turnberry's idyllic coastal location is easily accessible, whether you're coming for business or leisure. Having been substantially renovated in time for the 2009 Open championship, Turnberry has a beautiful choice of new guest accommodations, new restaurants and new bars and lounges. And beyond the windows of almost all of these new spaces lie sweeping views over golfing links and slate blue seas.

## The West Coast of Scotland

This is Scotland's southwest, a land bound by sea, marked by history. The land of poets and heroes, like Rabbin Burns and Robert the Bruce, and mile upon mile of coastline and gently rolling hills. Here you can savour the art of whisky making, experience the thrill of fly fishing or visit the magnificent Culzean Castle, where a whole day's exploration and discovery await. A little further away lies the dynamic, pulsating heart of Glasgow, one of Europe's most exciting cities, and beautiful, historic Edinburgh, home to the world's largest international arts festival.
